DISCIPLINE WORK PROGRAM

Б1.О.50 Clinical pharmacology

(name of discipline)

Specialty	**31.05.03 Dentistry for international students (in English)** (code, name)
Degree	Specialist's degree
Profile	02 "Healthcare" (in the field of providing health care in patients with dental pathology)
Mode of study	Full-time
Period of mastering the BEP	**5 years** (nominal length of study)
Department	of Pharmacology and Clinical Pharmacology

Vladivostok, 2025

Program of the discipline **Б1.О.50 Clinical pharmacology** is based on:
1) Federal State Educational Standard of Higher Education for the specialty approved by the Order No. 984 of Ministry of Science and Higher Education of the Russian Federation dated August 12, 2020.

2) Curriculum for the 31.05.03 Dentistry for international students (in English), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), approved by the Academic Council of FSBEI HE PSMU of the Ministry of Health of Russia, Report No. 8/24-25 dated March 31, 2025.

Work program for the discipline was developed by the writing team of the Department of Pharmacology and Clinical Pharmacology of the FSBEI HE PSMU of the Ministry of Health of Russia, under the guidance of the head of the department, Doctor of Medical Sciences, professor Eliseeva E.V.

Developed by:

Head of the Department	Doctor of Medical Sciences, Professor	Eliseeva E.V.
(position held)	(academic degree, academic title)	(full name)
Assistant professor	Candidate of Medical Sciences	Tyrtyshnikova A.V.
(position held)	(academic degree, academic title)	(full name)
Assistant	-	Parichuk K.A.
(position held)	(academic degree, academic title)	(full name)

1. GENERAL PROVISIONS

1.1. Purpose and Objectives of Mastering Б1.О.50 Clinical pharmacology

The purpose of mastering the discipline is acquiring knowledge on clinical pharmacology, as well as the principles of evidence-based medicine, rational pharmacotherapy and pharmacoeconomics; developing the ability to competently select the most effective and safe medications or their combinations for treatment of dental pathology according to their pharmacodynamic and pharmacokinetic properties.

Objectives of mastering the discipline:

1. Develop a system of knowledge in the field of general and special (specific) clinical pharmacology, modern achievements in the field of fundamental and clinical medicine from the standpoint of evidence-based medicine;
2. Develop a system of knowledge on pharmacodynamics, pharmacokinetics, indications and contraindications of the main groups of medications used in treatment of dental pathology;
3. Develop readiness and ability to apply knowledge about substance interactions and adverse drug reactions (ADRs) from the standpoint of effective and safe choice of pharmacotherapy and rational combinations of medications;
4. Develop readiness and ability to apply clinical and pharmacological algorithm of rational choice of medications and their dosing regimens for treatment of main diseases in accordance with diagnosis and clinical peculiarities of the patient, methods of evaluation of efficacy and safety of pharmacotherapy;
5. Form a system of knowledge in the field of legislation of the Russian Federation on the circulation of medicines;
6. Develop skills of studying scientific literature and official statistical reviews, standards and recommendations for the treatment of dental pathology.

2. DISCIPLINE AS PART OF THE BASIC EDUCATIONAL PROGRAM

Discipline **Б1.О.50 Clinical pharmacology** is included in the Mandatory part of the Unit 1 of the basic educational program for the specialty 31.05.03 Dentistry for international students (in English), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), and is part of the 6th semester's curriculum

3. PLANNED LEARNING OUTCOMES OF THE DISCIPLINE

3.1. Mastering the discipline **Б1.О.50 Clinical pharmacology** is aimed at the development of students' competencies. The discipline facilitates the development of students' competencies corresponding to the types of professional activity.

Name of competency category (group)	**Code and Name of competency of the graduate**	**Competency Indicators**
General Professional Competencies		
Diagnosis and treatment of diseases	GPC-6. Is able to prescribe, monitor the efficacy and safety of non-pharmacological and pharmacological treatment when working to achieve objectives of professional activity	CI.GPC-6_1- prescribes pharmacological treatment, selects dosage of medications and treatment regimens, as well as non-pharmacological procedures in accordance with existing guidelines with no outside help CI.GPC-6_2- monitors the efficacy of treatment, adjusts the treatment regimen if necessary; uses medications in different pharmaceutical form taking into account aspects of dental treatment CI.GPC-6_3- considers contraindications when prescribing treatment and identifies adverse drug reaction

3.2. Types of professional activity corresponding to competencies developed over the course of mastering **Б1.О.50 Clinical pharmacology**:

Types of professional activity objectives

1. Medical

Kinds of professional activity objectives

1. Prescribing pharmacological and non-pharmacological treatment and monitoring its efficiency and safety

3.3. Planned learning outcomes of mastering the discipline are represented by knowledge, skills, abilities and/or experience, characterize the stages of developing competencies and ensure achievement of the planned outcomes of mastering the basic educational program. Learning outcomes of a discipline are correlated with competency indicators.

4. SCOPE AND CONTENT OF THE DISCIPLINE

4.1. Scope of the Discipline and Types of Academic Work

Type of Academic Work		**Total Hours**	**Semesters**
			6
			hours
1		2	3
Classroom hours (total), including:		**46**	**46**
Lectures (L)		14	14
Practical classes (C)		32	32
Independent work of the student (IW), including:		**26**	**26**
Preparing for classes (CP)		16	16
Preparing for continuous assessment (CAP)		10	10
Preparation for interim assessment (IAP)			
Interim assessment			
Type of interim assessment	pass/fail test (T)	T	T
	exam (E)		
TOTAL: TOTAL credit value	hrs.	**72**	**72**
	credits	**2**	**2**

4.2. Contents of the Discipline

4.2.1. Topics of Discipline Lectures and Academic Hours per Semester

No.	**Lecture Topic**	**Hours**
1	2	3
	Semester No. 6	
1.	Introduction. Subject of clinical pharmacology. Sections of clinical pharmacology, their significance for the practice of a dentist. Safety assessment	2
2.	Organization and conduction of clinical studies of drugs. Foundations of evidence-based medicine	2
3.	Interaction of medications, principles of choosing a rational combination of medications. Pharmacogenetics	2
4.	Rational use of antibacterial agents in dental practice	2
5.	Clinical pharmacology of antifungal and antiviral agents	2
6.	Rational choice of pharmacotherapy for pain management (local anesthetics,	2

	NSAIDs)	
7.	Clinical pharmacology of medications affecting hemostasis	2
	Hours per semester total	**14**

4.2.2. Topics of Discipline Practical Classes and Academic Hours per Semester

No.	Practical Class Topic	Hours
1	2	3
	Semester No. 6	
1	Aspects of general clinical pharmacology. Interactions between medications. Adverse Drug Reactions in dentistry. Reporting of adverse reactions	4
2	Clinical pharmacology antibacterial agents. Principles of rational use of antibacterial agents in dental practice	4
3	Antiseptic and disinfectants: halogen-containing, oxidizing agents, aldehydes, detergents. Clinical pharmacology of antiviral and antifungal agents in dentistry	4
4	Clinical pharmacology of topical anesthetics. Selection of tactics of local anesthetic depending on the location, pharmacokinetics, and pharmacodynamics of the anesthetic	4
5	Clinical pharmacology of NSAIDs, SAIDs, narcotic and non-narcotic analgesics. Choice of pharmacotherapy for pain management	4
6	Clinical pharmacology of medications affecting the hemostasis system. Anticoagulants. Choice of pharmacotherapy for acute arterial and venous thrombosis, bleeding in the practice of a dentist	4
7	Clinical pharmacology of vitamins, phosphorus-calcium metabolism regulators. Choice of pharmacotherapy for vitamin deficiency, gum disease, caries	4
8	Clinical and pharmacological characteristics of psychotropic drugs. Principles of rational pharmacotherapy. Interaction issues, adverse side effects, indications for use. Final class session. Test on clinical pharmacology. Demonstration of prescription skills. Working with case studies	4
	Hours per semester total	**32**

4.2.3. Independent Work of the Student

No.	Name of the Discipline Section	Type of IW	Total Hours
1	3	4	5
	Semester No. 7		
1	Interactions between medications. Adverse Drug Reactions in dentistry. Reporting of adverse reactions	1. Working with the website of the Ministry of Health of the Russian Federation https://www.rosminzdrav.ru/ http://www.pharmgkb.org/ 2. Solving practice problems / working with case studies; 3. Working with prescriptions workbook; 4. Preparing for continuous assessment	3
2	Clinical pharmacology antibacterial agents. Principles of rational use of antibacterial agents in dental practice	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies;	3

		4. Preparing for continuous assessment	
3	Antiseptic and disinfectants: halogen-containing, oxidizing agents, aldehydes, detergents. Clinical pharmacology of antiviral and antifungal agents in dentistry	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	3
4	Rational pharmacotherapy for pain management (local anesthetics, NSAIDs)	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	3
5	Choice of pharmacotherapy for acute arterial and venous thrombosis, bleeding in the practice of a dentist	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	4
6	Clinical pharmacology of vitamins, phosphorus-calcium metabolism regulators. Choice of pharmacotherapy for vitamin deficiency, gum disease, caries	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	5
7	Clinical and pharmacological characteristics of psychotropic drugs. Principles of rational pharmacotherapy. Interaction issues, adverse side effects, indications for use	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	5
	Hours per semester total		**26**

5. REQUIREMENTS FOR IMPLEMENTATION OF DISCIPLINE

5.1. Discipline Requirements for Educational Materials and Provided Information

Essential reading

No.	Name/Title, Resource Type	Author(s)/Editor	Publisher Imprint, Web Address	Number of Copies (accesses) in the Library and Information Center
1	**2**	**3**	**4**	**5**

5.2. Discipline Requirements for Facilities and Resources

Information on the facility and resource availability and requirements of the discipline is available on the Facility and resource availability and requirements. FSBEI HE PSMU of the Ministry of Health of Russia (tgmu.ru)" page of the official website of the university.

5.3. List of Information Technologies, Information and Reference Systems, Licensed and Free Software (Including Domestically-developed Software):

1. PolycomTelepresence M100 Desktop Conferencing Application (Videoconference system)
2. SunRav Software tTester
3. 7-PDF Split & Merge
4. ABBYYFineReader
5. Kaspersky Endpoint Security
6. INDIGO online testing system
7. Microsoft Windows 7
8. Microsoft Office Pro Plus 2013
9. 1C:University
10. GARANT system
11. MOODLE (Modular Object-Oriented Dynamic Learning Environment)

6. ASPECTS OF THE IMPLEMENTATION OF THE DISCIPLINE FOR STUDENTS WITH DISABILITIES AND SPECIAL NEEDS

6.1. Availability of Accessible Environment

For students with disabilities and special needs, if a written application is submitted, lectures and practical classes are carried out taking into account health limitations, individual capabilities and medical status (hereinafter referred to as individual characteristics) of the student. Compliance with the following general requirements is ensured: teaching aids for collective and individual use are provided, required technical assistance is provided by an assistant; buildings and premises where lectures and practical classes are taking place meet accessibility requirements, other arrangements lack of which makes it impossible or difficult to master the discipline are made.

6.2. Ensuring Compliance with General Requirements

When lectures and practical classes are carried out at the written application of the student, the following general requirements are met: lectures and practical classes for students with disabilities and special needs take place at the same location as for students who do not have disabilities, if this does not cause difficulties for students; an assistant (assistants), who provide(s) students with the necessary technical assistance taking into account individual characteristics of the student, is (are) provided; necessary teaching aids are provided, taking into account individual characteristics of the student.

6.3. Availability of the Internal Policies and Procedures of FSBEI HE PSMU of the Ministry of Health of Russia to Students with Disabilities in a Format Accessible to Them.

All internal policies and procedures of FSBEI HE PSMU of the Ministry of Health of Russia concerning the discipline are made available to students with disabilities in a format accessible to them.

6.4. Increase in the Time Limit of Interim Assessment for Students with Disabilities and Special Needs in Relation to the Established duration

Format of the interim assessment of academic performance within the scope of the discipline conducted for students with disabilities and special needs is selected taking into account individual characteristics of the students (orally, by writing on paper, by typing on a computer, as a test, etc.). The duration of the interim assessment in relation to the established duration is increased at the written application of the student with disabilities. Time limit for the student's preparation for the test is increased by at least 0.5 hours.

7. STAFFING REQUIREMENTS OF THE DISCIPLINE

Academic teaching personnel that ensure the implementation of the discipline education process meet the requirements of the Federal State Educational Standard of Higher Education for the 31.05.03 Dentistry for international students (in English) specialty; list of the aforementioned personnel is available on the website of the educational organization.

8. TUTORIAL WORK

Type of tutorial work	Forms and approaches to tutorial work	Assessment criteria
Assistance in personal growth	Overt Talks and problem-centric debates aimed at promotion of healthy lifestyle. Participation in interdepartmental conferences aimed at formation of healthy lifestyle and development of skills necessary to preserve and improve health.	Portfolio
	Covert – creating atmosphere and infrastructure. Developing a culture of healthy lifestyle, the ability to preserve and improve health. Creating atmosphere of kindness and respect with a high level of communication during implementation of the discipline.	
Civic position and values	Overt Conducting events that facilitate development of civil culture (roundtable discussions, discussions/debates, and talks). Short discussions on current significant events in case the latter occur.	Portfolio
	Covert Focusing on civic values-oriented position and legal awareness. Cultivating mindful social position during professional activity.	
Social values	Overt Highlighting aspects of organization of healthy lifestyle based on health-preserving technologies. Highlighting ecology-related questions, environmental issues as a factor affecting population health and select population risks.	Portfolio
	Covert Identification in social structure during period of education and in professional activity.
